JUL 27 1983

Mr. John Doyle, Chief
Technical Services Section
Department of Natural Resources
P.O. Box 1368
Jefferson City, Missouri 65102

Dear Mr. Doyle:

A letter to the McDonnell Aircraft Company (MAC) has been sent declaring the MAC application complete (copy enclosed). The letter also requests information necessary to clarify, modify or supplement previously submitted material.

Our proposed decision schedule for this application is as follows:

<u>Action</u>	<u>Time Frame</u>
McDonnell Douglas Corp. (MDC) Tract I response to EPA	30 days
EPA to complete technical review after MDC-Tract I response (assuming all necessary information is available)	30 days
EPA assembles Administrative Record and draft permit	30 days
EPA draft and issue public notice	15 days
Complete public comment period	45 days
Hold public hearing (if necessary)	45 days
Final permit issued	30 days

Thus, depending on the necessity of a public hearing, the final issuance of a RCRA permit would be anticipated between early January 1984 or mid to late February 1984.

If you have any questions or comments about the MAC letter please do not hesitate to contact me or the member of my staff most familiar with this subject, Stephen Busch at 816/374-6531. Also, if you would like to discuss the decision schedule, please contact us.

Sincerely yours,

Lyndell L. Harrington, P.E.
